

Cover Letter

Hi my name is Daniel,

I am a **passionate video editor** with a knack for crafting compelling narratives that **resonate with audiences**. With a unique background in martial arts instruction, aviation, and music, I've **transitioned** into the realm of **video editing and social media management**, driven by my love for storytelling and digital creativity.

With **hands-on experience** in **video production, sound editing, and social media management**, I am adept at creating content that not only tells a compelling story but also **engages and grows the audience**.

I am looking to further **delve into my video editing career**, contributing my unique blend of skills to a forward-thinking video production team **in the UK**. The essence of the **right environment** and a **team of like-minded creatives** is something I value immensely, so if my expertise aligns with your needs, I am excited about the prospect of collaborating.

Currently, I'm **managing the social media campaigns** at BASE9 Grappling Academy, significantly enhancing our online visibility through video editing. In the **first month alone**, we gained nearly **5k followers on TikTok**, around **2.4k on Instagram**, and almost **500 subscribers on YouTube**. One video amassed **765k views** across TikTok and Instagram, with several others exceeding **100k views**. Our YouTube shorts, especially one hitting the **10k mark**, have also garnered notable attention, propelling us past established accounts and bigger brands in engagement metrics.

In the last year, my creative journey has led to my videos amassing over **4m+ views collectively**, a testament to my passion for **crafting concise, compelling content** that not only speaks to the audience on a personal level but also **inspires them to engage, share**, and become an **active part of a supportive community**. This experience has honed my skill in creating content that not only **informs and entertains** but also fosters a sense of belonging among viewers, **encouraging dialogue and mutual support within the community**.

I am enthusiastic about discussing how my background, skills, and passions align with your video editing needs. I invite you to **review my portfolio and resume** for a more in-depth look at my experiences and accomplishments. Please feel free to **contact me for an interview** at your earliest convenience. I am very thankful for your consideration and am looking forward to the possibility of **contributing to your team**.

Thank you,
Daniel D.
